Partners in Care Home Care

**Your partner in
care will always
be there!**

**Instead of working for you,
we work with you to create
a plan that best fits you or
your loved ones unique
needs.**

Other agencies may promise
to always have a caregiver
present, but they tend to leave
their patients unattended. We
take pride in saying that we
have **never** left a client without
care. Just know that you have
the **freedom of choice**
and you can always change
agencies if you are unhappy
with the services rendered,
even from us.

Benefits

1. **Higher Patient Morale-**
It has been proven that people are more likely to live longer when their independence is maintained in the comfort of their own homes.
2. **Lower Cost-**
Significant savings over hospitals or long term care facilities. Many people are also unaware that they are eligible to receive **free** in-home health care services.
3. **Quick recovery time-**
People are more likely to recover much quicker in familiar and safe surroundings such as their own home.
