

Associate Safety Officer – Rail Operations & Facilities

Pittsburgh Regional Transit is seeking an Associate Safety Officer – Rail Operations & Facilities to provide technical and field support to the Deputy Chief Safety Officer and all Rail Division Management as needed.

Essential Functions:

- Assists Division Directors, Deputy Chief Safety Officer and other Safety Officers in identification and resolution of employee and operations safety issues.
 - Provide safety support during all construction projects including design/specification review, site inspections and regulatory reviews.
 - Conduct periodic reviews of work zones along the rail alignment to ensure compliance with Rail SOP's.
 - Work with Rail Operations and Maintenance groups to address safety issues concerning equipment and facilities.
 - Conduct periodic reviews at various rail locations to determine operational and maintenance rule compliance.
 - Assist the Director of Rail Service Delivery and Deputy CSO with periodic reviews and updates of the rail rulebook and SOP's.

Job requirements include:

- Associates degree in Safety, Occupational Safety and Health, Environment Health and Safety, Emergency Management, Fire Science, or other Technical related field from an accredited school.
- Minimum of one (1) year experience in safety, emergency response, investigative/police work, analytical or related field.
- Ability to complete the National Safety Council's Advanced Safety Certification course within three (3) years of hire.
- Ability to obtain the FTA required TSSP-Rail and PTSCPT certifications within 3 years of hire.
- Effective and professional communication skills including report writing.
- Valid driver's license.
- Demonstrated ability in the use of Windows, Microsoft Word, Excel and PowerPoint.

Preferred attributes:

- BA/BS in Safety Science, Occupational Safety and Health, Environment Health and safety or related field from an accredited school.
- Experience in program compliance work, corrective action plans, data, and trending analysis.
- Mass/rail transit experience, and especially in a union environment.
- Qualified accident and injury prevention provider as defined by Pennsylvania Worker's Compensation Regulations.
- Experience with Power BI, and/or other business analytical software.

We offer a comprehensive compensation and benefits package. Interested candidates should forward a cover letter (*with salary requirements*) and resume to:
